

1. user_good & pass_good

Plaid Quickstart

An example application that outlines an end-to-end integration with Plaid

Click the button below to open a list of Institutions. After you select one, you'll be guided through an authentication process. If using the default Sandbox environment, use username **user_good** and password **pass_good**. Upon completion, a public_token will be passed back to the server and exchanged for access_token.
